

PN-GPP400 Pronto Hotzone Gateway™

TECHNICAL SPECIFICATIONS

Physical Specification	
Profile	1U half-depth chassis
Dimension	19" x 15.5" x 1.75"
Weight	14.5 lbs / 7.0 Kg
Hardware Features	
CPU	Dual Processor (Intel Xeon)
CPU Speed	2.4 GHz
Chipset	Intel E7501
System Bus Speed	533/400 MHz
Memory	512 MB
Hard drive	40 GB
Power Supply	
Type	Autoswitching 100-240 VAC or 48 VDC
Interfaces	
10/100 Mbps Ethernet ports	2
Performance	
User Support	Up to 2,000 concurrent users
Key Features	
<ul style="list-style-type: none"> External AP support User level bandwidth controls Subnet roaming & Inter-WISP roaming Remote management via SOAP/HTTPS, CLI (Telnet), SNMP and Alert notification 	<ul style="list-style-type: none"> Roaming with iPass, GRIC and Boingo Customizable web portal, XML support Property Management Interface Zero Configuration and Auto Authentication for clients with URL preservation
Networking	
<ul style="list-style-type: none"> SMTP redirection DNS redirection DHCP server and client NAT (RFC 1631) with port forwarding Edge Network (DHCP, static IP) 	<ul style="list-style-type: none"> Internet uplink media (cable, DSL, satellite, leased lines) QoS support (policy-based) ICMP ARP DMZ port
Security	
<ul style="list-style-type: none"> IPSec IKE X.509 authentication Secure HTML login page (SSL) IP Routing with NAT, port-forwarding, firewall filters 	<ul style="list-style-type: none"> VPN pass-through (IPSec/PPTP/L2TP) Support for public and private IP
Management	
<ul style="list-style-type: none"> Auto-provisioning / auto-configuration of device Web-based management via OSS Command Line Interface (CLI) Scheduled configuration upgrades from central server Remote web-based firmware upgrades Real-time session list 	<ul style="list-style-type: none"> Idle user monitoring User traffic accounting MIB II with traps Syslog message system Printer support SNMP support
User Authentication and Accounting	
<ul style="list-style-type: none"> Login page based authentication MAC Id-based authentication Radius authentication LDAP authentication User monitoring (including with personal firewall) 	<ul style="list-style-type: none"> Logout window timer control MSN Passport authentication SMS authentication SIM-based authentication Both time and data based accounting
Local Services Presentation	
<ul style="list-style-type: none"> Customized login page 	<ul style="list-style-type: none"> Walled garden
Warranty	
<ul style="list-style-type: none"> 1 year parts and labor
